

Mobile Dust Collectors

QP **Quality Product
Solutions™**

Simple Solutions. Quality Craftsmanship. Proven Reliability.

The **DUST-PRO** line-up of mobile dust collectors will keep your work environment clean, safe and compliant. We provide a wide variety of CFM ranges that can be customized to fit your application. Our mobile dust collection systems can be used on jobsite blasting operations or any other heavy dust load process.

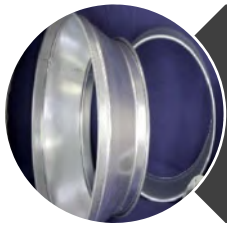

The **MXD series** offers a skid or trailer mounted unit which can be electric or diesel powered.

Model sizes:

MXD-2000	MXD-4000	MXD-6000
MXD-9000	MXD-12000	MXD-15000
MXD-20000	MXD-30000	MXD-40000

Key Standard Features:

INLET HOSE CONNECTIONS INSTALLED WITH QUICK RELEASE DUCTING ACCESORIES: HOSE ADAPTERS, CLAMPS, CAPS, AND REDUCERS

ON DEMAND CARTRIDGE PULSE JET CLEANING SYSTEM COMPRESSED AIR

80/20 POLY BLEND PLEATED CARTRIDGES, MERV 12 RATING, 99.97% @ 0.3 MICRON, FILTER CHANGE OUT NO TOOLS REQUIRED

OSHA requires increased ventilation to be compliant with the hazards of the workplace. Creating a negative zone or containment area will allow the dust particulate to be captured by the collector. The **MXD series** comes standard with 80/20 poly blend pleated cartridges with a MERV 12 rating in vertical or horizontal arrangements. These cartridges are effective at capturing large dust particles as well as smaller micron particulate from going back into the workplace.

The **PDC series** comes standard with a compact welded steel cart and swivel caster kit. These units can be electric or gasoline powered.

Model sizes:

PDC-250 PDC-500 PDC-750
PDC-1000 PDC-1500 PDC-2500

The **PDC series** has a cyclonic separator for unloading the larger dust particles into a 55 gallon drum container. There is also a (3) stage filtration system consisting of Nano-fiber media (MERV 15 rated) that collects the small dust particles into a removable dust and debris drawer.

All models are easy to move, simple to use, and quick to set up. The **PDC series** have compact sizes that are convenient and versatile for industries demanding portable equipment in hard to reach areas.

- Painting -Sandblasting -Sawing or Cutting -Grinding
- Silica -Manufacturing -Construction -Respirable Dusts

Contact one of our Sales Associates for more information on the **MXD series** or **PDC series** portable dust collectors.
