

# FLEX-VENT™

## PVE Series Ventilator/Exhauster

www.mobiledustcollectors.com

**SIMPLE SOLUTIONS. QUALITY  
CRAFTSMANSHIP. PROVEN RELIABILITY.**

The FLEX-VENT models can be used in applications as a utility blower or for general ventilation. All models are capable of exhausting fumes or supplying fresh air to confined spaces. The PVE series have compact sizes that are durable and rugged for industries demanding portable equipment in hard to reach areas. These products will provide easy maintenance and insure a safe and cleaner working environment. Custom sizes and various construction materials are available upon request.

### FLEX-VENT MODELS

CFM	STATIC	MOTOR HP	MOTOR FLA	INLET/OUTLET DIAMETER	WEIGHT
• 250	6" WG	1/2	7 (115V)	5"	62 LBS.
• 500	7" WG	1	12 (115V)	6"	77 LBS.
• 750	7" WG	1-1/2	16 (115V)	7"	109 LBS.
• 1000	8" WG	2	20 (115V)	8"	152 LBS.
• 1500	8" WG	3	14.5 (230V)	10"	199 LBS.

### STANDARD EQUIPMENT

- (1) inlet hose connection with OSHA guard
- (1) outlet hose connection with OSHA guard
- Pre-wired cord with 3 prong plug, 8 ft.
- 1 Phase continuous duty electric motor, 115/230 V, TEFC
- Transport grip handle
- Stationary mount with vibration pads
- AMCA type "C" fan construction
- Mild carbon steel construction
- 360 degree rotation discharge outlet
- Epoxy primer and polyurethane enamel paint inside & out

### OPTIONS

- Custom inlet/outlet connections
- 3 Phase electric motor
- Caster wheel kit
- Swivel mounting stand
- Transportable dolly cart
- Silencer (intake or discharge)
- Damper (inlet or outlet)
- Explosion proof motor and controls
- AMCA type "A" or "B" fan construction
- Ducting and hose accessories
