

Ventilators and Exhausters

**Quality Product  
Solutions™**

Simple Solutions. Quality Craftsmanship. Proven Reliability.

The **FLEX-VENT** line-up of portable ventilators and exhausters are capable of exhausting fumes or supplying fresh air to confined spaces. We provide a wide variety of CFM ranges that can be customized to fit your application. Our mobile ventilator systems can be used as a utility blower or for any general ventilation application.

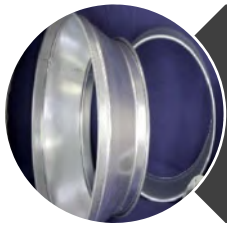

The **MVE series** offers a skid or trailer mounted unit which can be electric or diesel powered.

**Model sizes:**

<b>MVE-2000</b>	<b>MVE-4000</b>	<b>MVE-6000</b>
<b>MVE-9000</b>	<b>MVE-12000</b>	<b>MVE-15000</b>
<b>MVE-20000</b>	<b>MVE-30000</b>	<b>MVE-40000</b>

**Key Standard Features:**

INLET HOSE CONNECTIONS INSTALLED WITH QUICK RELEASE DUCTING ACCESORIES: HOSE ADAPTERS, CLAMPS, CAPS, AND REDUCERS

STANDARD SKID BASE FORK POCKETS AND LIFTING EYE WITH REMOVABLE FRAME COMPONENTS

OVERSIZED FUEL TANK 100 GALLON EXTENDED RUN TIME

OSHA requires increased ventilation to be compliant with the hazards of the workplace. The **MVE series** can supply positive or negative ventilation for hard to reach remote locations. These utility blowers can provide fresh air to jobs in manholes, tunnels or tanks. They can also be used as exhausters removing harmful fumes or gases from enclosed spaces.

The **PVE series** can ventilate a space by keeping fresh air flowing or exhaust potential hazardous fumes from overwhelming an area. These units can be electric or gasoline powered.

**Model sizes:**

**PVE-250    PVE-500    PVE-750**  
**PVE-1000    PVE-1500    PVE-2500**

The **PVE series** have small compact bases that come equipped with rubber isolators for vibration free operation. The hose connections have quick release fittings to add or remove hose onto the intake or exhaust depending on the application.

All models are easy to move, simple to use, and quick to set up. The **PVE series** have compact sizes that are convenient and versatile for industries demanding portable equipment in hard to reach areas.

- Crawl spaces
- Manholes
- Utility Blower
- Tanks
- Confined Spaces
- Tunnels
- Cooling
- Drying
